Seinäkiinnitys
Väggfästning
Wall mounting

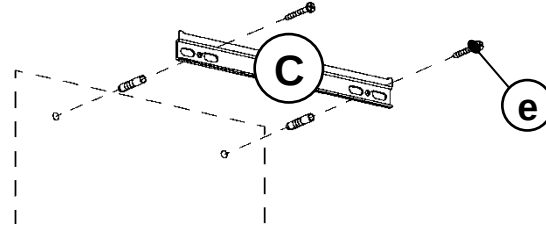

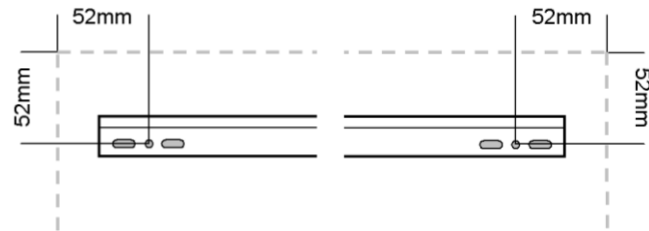

(A)

(B)

(d x2)

Huom!

Ennen kuin kiinnität moduulin seinään, tarkista seinän tukevuus. Jos seinä on kipsilevyä, kiinnitystulppien on oltava kipsilevyyn sopivat.

Obs!

Innan du fäster modulen i väggen, kontrollera väggens stabilitet. Om väggen är av gipsskiva, måste propparna vara lämpliga för gipsskiva.

Note!

Control the steadiness of the wall before fixing the module. If the wall is of plasterboard, the wall plugs must be suitable for plasterboard.
